

Issues and Future Tasks of Research Administration in Japan - Learning from experiences in US, Europe and Australia -

Since Research Administrators (URA) were introduced in Japan, the time has come to rethink the purpose of research administration and what kind of work should be done as a research support professional. At this seminar, people of different ranks from several foreign research institutions will introduce case examples targeting research administrators and administrative staff involved in research support from Japanese universities to discuss issues and measures in research administration.

Date & Time : March 19, 2019 13:00-17:35 (17:35~ networking session)

Venue : Kyushu University, Ito Campus, Inamori Center, Inamori Hall 1F

<https://www.kyushu-u.ac.jp/f/34233/20181001ito.pdf> (No. 48 on map)

One min. walk from us stop "faculty of Sciences"

Target : Research administrators, university staff, researchers from Japanese universities

Program

| | |
|--------------|--|
| 13:00 | Opening Address Prof. Hiroyuki Sasaki, Senior Vice President, Kyushu University |
| 13:05-13:35 | Special Lecture "Introducing URA Careers to Japan -Process, Activities, and Problems-" Prof. Shinichi Yamamoto, Director of Research Department, National Institution for Academic Degrees and Quality Enhancement of Higher Education |
| 13:35-14:15 | "International Funding: from pre-award to post-award" Christine Chang, PhD US Research Funding Specialist, Karolinska Institute |
| 14:15-14:55 | "Project Development for Acquisition of Large-Scale Projects" Prof. Karl V. Steiner, PhD Vice President for Research, University of Maryland Baltimore County |
| Coffee Break | (10 min.) |
| 15:05-15:45 | "Data analysis in research strategy, monitoring performance and acquiring funding" Monique O'Callaghan, Director Research Development (FMDH), Melbourne University |
| 15:45-16:25 | "Development of multidisciplinary projects" Kathleen A. Hayes-Ozello, PhD, Proposal Development Specialist, Ohio State University |
| 16:25-17:30 | Panel Discussion |
| 17:30-17:35 | Closing Remarks |
| 17:35-19:30 | Networking Session (2500 JPY) |

Profiles of the Speakers and Lecture Contents

Prof. Shinichi Yamamoto, Dr. Agr.
Director of Research Department

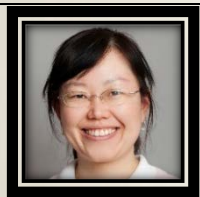

National Institution for Academic Degrees and Quality Enhancement of Higher Education

Prof. Yamamoto fulfills the functions of executive advisor to Okayama University, Visiting Professor to the National Institution for Academic Degrees and Quality Enhancement of Higher Education, Visiting Professor to the National Institutes of Natural Sciences and is Professor Emeritus of Okayama University and of Nagoya University.
 In this lecture, Prof. Yamamoto will give a lecture on the history of the research administration system introduced in Japan, the current research administrator's activities, and discuss the vision of the research administration system.

Christine Chang, PhD

US Research Funding Specialist, Karolinska Institute

Christine Chang serves as US Funding Specialist at the Grants Office at Karolinska Institute. She gives advice to university researchers and administrators on administration, finance and formulation of the application.
 In this lecture Christine Chang will share her experience in preparing applications for international funding such as US funding from pre-award perspective and post-award perspective.

Prof. Karl V. Steiner, PhD

Vice President for Research, University of Maryland Baltimore County (UMBC)

Dr. Karl V. Steiner serves as the Vice President for Research and holds the academic rank of Professor in the Department of Mechanical Engineering and an affiliate appointment as Professor in the Department of Computer Science and Electrical Engineering at the University of Maryland, Baltimore County.
 In this presentation, Prof. Steiner will share his experience serving in leadership roles to secure externally funded programs for research and infrastructure programs supporting institutional, statewide and regional initiatives.

Monique O'Callaghan

Director Research Development (MDHS), Melbourne University

Ms. O'Callaghan has more than 17 years of experience in the research management profession in a number of roles at the University of Melbourne, spanning both central and faculty administrative positions. Her current role is as Director, Research Development in the Faculty of Medicine, Dentistry and Health Sciences (MDHS).
 In this lecture, Ms. O'Callaghan will talk about the use of analytics in deciding research strategy for the university, monitoring the research performance of the university and how analytics can be used in deciding what funding should be acquired.

Kathleen A. Hayes-Ozello

Proposal Development Specialist, Ohio State University

As the college grants specialist and research administrator, Hayes-Ozello is in charge of obtaining and processing funding provided by the National Institutes of Health, submitting 50-70 grants annually and managing a portfolio of more than \$11 million in research expenditures.
 Ms. Hayes-Ozello will share her experience in developing multidisciplinary projects with the aim of acquiring funding.
